No 3,550 — THIRTEENTH YEAR | BUENOS AYRES, WEDNESDAY MARCH 4 1874 | CIRCULATION, 3000.

MAUA BANK
101 & 103 CALLE CANGALLO.

The Offices of this Bank having been removed to the above spacious Building, in order to suit the increasing flow of business, the Public is informed that the following transactions are carried on in currency and specie in this Bank:—

First—Bills and obligations with good signatures are discounted on conventional terms.

Second—Money is advanced on mercantile and other securities, approved of by the Manager.

Third—Accounts current are opened with Merchants or other parties who may prefer depositing endorsed and transferable securities, against which they may draw up to an amount previously convened under conditions established for such class of operations.

Fourth—Money is received in account current, bearing interest from day of deposit, which is accumulated in favor of the parties every three months, the depositors being allowed to retire at any time, by means of cheques part or the full amount, at their wish, save when the quantity exceeds three hundred doubloons, for one hundred thousand dollars currency, in which case forty-eight hours' previous notice is required to be given to the Treasury of the Bank.

Fifth—Bills or letters of credit are drawn and taken on Montevideo, Rosario, Sta. Fé, Salto Oriental, Paysandu, Rio Janeiro, and other places in the Brazils. England, and France, as also on other places, of which due notice will be given hereafter.

Finally, the Bank undertakes and executes all legitimate transactions, within the orbit of banking operations.

The establishment is always open from 10 a.m. till 3 p.m.

The value of property offered in mortgage shall not be under two thousand patacons, nor the loan be less than 500 fuertes.

No loan can exceed half the value of the property mortgaged.

The Mortgagor shall bind himself to pay an annual sum so long as the mortgage lasts, said sum to represent the interest on the sum lent the amortization fund and commission to the Bank. This yearly sum shall be paid quarterly or half-yearly.

Series A—Quarterly.
Mortgage for 20 years 117 days, 8 per cent. interest, 2 per cent. amortization, and 1 per cent. commission.

Series B—Quarterly.
Morgage for 27 years 270 days; 8 per cent. interest, 1 per cent. amortization, and 1 per cent. commission.

Series C—Half-yearly.
Mortgage for 20 years 190 days; 8 per cent. interest, 2 per cent. amortization, and 1 per cent. commission.

Series D—Half-yearly.
Mortgage for 28 years 6 days; 8 per cent interest, 1 per cent. amortization, and 1 per cent commission.

Upon the full payment of the yearly sums stipulated in the Mortgage, both property and Mortgagor shall be freed from all further obligation.

The Mortgagor shall be at liberty to anticipate the payments and to discharge the mortgage, all or in part.

Applications for mortgages must be made in writing, specifying the property offered, accompanied by the title deeds, the receipts of the Contribucion Directa tax, and setting forth that the property is free from all incumbrance, or if not the incumbrance that exists thereon, and which is to be paid off by the mortgage. The Secretary of the bank will supply applicants with the forms necessary as also the tables for amortisation.

Quarterly mortgagers shall pay from 8th to 15th of each January, April, July and October, and half yearly mortgagors shall pay between the 8th and 15th of each January and July.

With the amortization fund, mortgage certificates (cedulas) shall be redeemed at par by quarterly and half yearly drawings.

The mortgage Bank pays the interest on the quarterly cedulas or mortgage certificates between the 31st December, and 6th January, the 31st March and 6th April, the 30th June and 6th July, the 30th September and 6th October every year, and on the half yearly cedulas from the 31st December to 6th January, and from 30th June to 6th July.

The Mortgage Bank can act between the capitalist and mortgagor, free of charge in the way of realizing the cedulas, and for this purpose will receive deposits without interest, which will receive a preference, and which sums will be deposited in the Provincial Bank.

On and after the 15th February 1872 the Mortgage Bank will be open to the public.

Jose M. La Fuente,
Secretary.

Having received several very important improvements viz.:—

Morrison's wonderful little Engine, for cleaning and excavating decayed teeth, preparatory to filling, which does the work with such rapidity and beautiful exactness, that in a very few seconds an otherwise sensitive tooth is prepared for the Gold in a manner unattainable by the disagreeable method of scraping and burning, so well known by those who have experienced the operation.

Also Green's Electric Engine, which took the grand Diploma of Honor at the Vienna Exhibition. The feat of harnessing lightning is fairly done in this neat, efficient, and truly wonderful little machine. By this we manipulate the gold into the most difficult or frail tooth, with the most exquisite exactness, and without danger of fracturing the most delicate enamel, Then, with the same engine, we finish and polish the filling in less than one quarter the time formerly required, and without pain. No patient who has had teeth filled in this manner once, will ever willingly consent to the use of excavators or burrs again.

We have also received an immense quantity of the most beautifully carved Artificial Teeth, comprising thousands of different shades and forms, from which with our long practical experience we can match any style or feature, complexion, or expression, with such artistic niceness that detection is impossible.

The Plate we use for the atmospheric pressure is the Whalebone Rubber, the lightest and strongest known.

We have been using Nitrous Oxide Gas for the painless Extraction of Teeth for nearly fourteen years, and have administered over

20,000 Times,

2,140 times in this City alone, since August 1872,

And recommend it as the safest anesthetic known. It is nothing new, as it has been tested by thousands of Dentists, and hundreds of thousands of people.

NEW ADVERTISEMENTS

DYSPEPSIA CAN BE CURED!—Let the martyrs read. One word to Dyspptics: You endure a living martyrdom, and no relief has who have known what dyspepsia is, can understand what you suffer. But there is a remedy; an immediate, absolute, never-failing remedy, within your reach, at your very door, as it were. It is Bristol's Sarsaparilla. You have heard of it. Why has not? Use it, and laugh at indigestion and all its concomitants and consequences. In a week it will "relieve the stuffed bosom of all that perilous stuff," that rendered your life miserable. The flatulency, the constriction of the stomach, the incapacity for activity, either of body or mind, the midnight restlessness and daily purge, the headache, the nausea, the indescribable feelings which belong to dyspepsia, and to no other complaint, will pass away like shadows. Make the experiment. In many cases of dyspepsia the use of Bristol's Sugar-coated Pills will greatly enhance each cure.

TITLE TO PATAGONIA.

STRAY LEAVES FROM HISTORY.

When Washington Irving and his countryman Prescott turned over the dusty records of Simancas and San Juste to bring to light so many forgotten passages of Spanish history they must have come upon many a document or state-paper bearing on the present disputed territory of Patagonia. The authorities quoted by B. Ayres and Chile are often contradictory, and can only be explained by the supposition that Spain at different periods altered the territorial limits and jurisdiction of her colonies. Under these circumstances we could wish for a general investigation of the Spanish archives, to clear up the existing obscure points, and allow an impartial judgment to be arrived at.

The other day we published the Argentine view, from Mr. Frias's standpoint, based on the instructions to the Viceroy Bucarelli, wherein the Patagonian coasts are included in Buenos Ayres.

We have now before us a pamphlet of 200 pages just published by Minister Ybañez in support of the Chilian pretensions, which rely on so many titles, that we shall content ourself with two by way of example.

"*Instruction to the Viceroy at B. Ayres about establishing Forts on the Patagonian Coasts, at Bahia Sinfondo, San Julian, &c., between the River Plate and Straits of Magellan.*

"Aranjuez, June 8th, 1778.

"As Great Britain is about to lose her North American colonies she will try to compensate herself by acquisitions in South America, especially about Patagonia, already well explored by English cruisers.

"The whale-fishery is another inducement, the English having already made the Falklands a whaling station. We understand several projects on this head have been submitted to the British Government, and it is necessary to keep a strict watch on Patagonia.

"Two places are suitable for forts or settlements; viz., 1st, San Matias at the mouth of the Rio Negro, which traverses the kingdom of Chile for 300 leagues, and debouches into Bahia Sinfondo. 2nd, San Julian, or some point further south, towards Magellan's Straits.

"Don Juan de la Piedra is appointed Governor of the two new settlements, with three assistants, and the Viceroy will find the necessary boats, provisions and people for the undertaking.

"Governor de la Piedra will take with him provisions for 6 or 8 months, and first make the Rio Negro settlement at San Matias. Then leaving his first assistant there La Piedra will proceed southward to make another settlement at Gallegos, Santa Cruz or San Julian, as the facilities of wood and water may offer best.

"Meantime the Commissary at Rio Negro will make surveys of the country around, and proceed in boats 20 leagues to the north, as far as the mouth of the Colorado, another river which traverses the Kingdom of Chile.

"Near the Colorado he will find Salinas from which good salt may be taken to salt the meat at present allowed to rot in Buenos Ayres, and good for exportation. Here he will establish a fort.

"The Governor at San Julian will survey the whole coast to Magellan's Straits, and advise the Viceroy at Buenos Ayres of the best places to make establishments, so as to secure those dominions to Spain, and prevent the sinister designs of Great Britain.

"The King trusts that the Viceroy of Buenos Ayres will spare no pains or labor to carry out his wishes in this matter."

The above document pretty clearly shews that the King of Spain regarded the whole coast-line to Magellan's Straits as depending on the Viceroyalty of Buenos Ayres, and the Pampas traversed by the rivers Colorado and Negro as Chilian territory.

This is in a manner confirmed by a document taken from the British Museum, dated 1744:—

"*Report by the Bishop of Santiago de Chile on the jurisdiction of that kingdom, by virtue of the King's order of 1744.*

"Chile extends from Cape Horn to Cerro San Benito, 24 S. Lat, being separated from Peru by the desert of Atacama.

"East of the Andes it has the province of Cuyo, extending to Sierra Jachal near Cordoba, following the Punilla valley and an arroyo that is lost in the Pampas, till the frontier line terminates at 44 S. Lat., at the mouth of the Rio Negro, all the territory north of which belongs to Buenos Ayres. But all South to Magellan's Straits belongs to Chile."

The above document was written 34 years before the King's rescript, and we find two points of difference. 1st the Bishop makes the Colorado flow through Buenos Ayrean territory, while the King makes it Chilian, 2nd the Bishop claims the coast-line from 44 S. Lat. to the Straits, which the King makes subject to Buenos Ayres.

It is pretty evident that the jurisdiction of Chile and B. Ayres was not well defined at that period. Hence we shall find authorities alternately favoring one and the other of the present claimants.

One thing is pretty clear, that the Argentine Republic is not going to surrender Mendoza, San Juan and San Luis to Chile, and yet the claim to our Cuyo territory could be easier proved than the title to Patagonia.

Under all the circumstances it would be wise to leave the matter for arbitration by President Grant. Mere parchment titles will not be enough to establish the Chilian pretensions, but a common-sense view of the case in all its merits. A neutral Power will probably incline to divide the sovereignty of the Straits to insure the interests of free navigation, and while Sandy Point will doubtless be left undisputed to the Chilians, as first settlers, the natural boundary of the Andes will sooner or later be accepted as the divisory line between the Argentine Republic and Chile.

SUPREME FEDERAL COURT.

DECISIONS ON MERCANTILE POINTS.

Casares versus Shaw. This suit was for double lighterage fees (during the Yellow Fever) on the discharge of 58 boxes from the steamer Marina, May 29th 1871. The amount claimed was 5,075$m|c, but Mr. John Shaw refused to pay more than half, that is the ordinary charge. It appeared Messrs. Woodgate Brothers had notified consignees that double-lighterage was charged, and the Bolsa de Comercio, in reply to Judge Zavaleta, testified that the Custom-house did not get into proper working order till the middle of July. Judge Zavaleta decided, on Feb. 22nd 1873, that Messrs. Casares were entitled to double fees, Mr. Shaw appealed, and on April 24th the Supreme Court reversed the sentence of the Sectional Judge, on the grounds that the Custom-house was re-opened on May 16th 1871 and there was no proper motive to charge double lighterage from that date.

Rocca versus Recalde. The defendant while holding the post of Paraguayan Consul had accepted a bill drawn by the Paraguayan Government and held by Messrs. Roca. When it matured Mr. Recalde had been removed, and pleaded, 1st that he was no longer Consul. 2nd that he had no funds of the Paraguayan Government. The Federal Court refused both pleas, and held him liable for the amount.

Lecube versus Delcampo. In Feb. 1851 Delcampo had a draper's shop at the corner of Parque and Peru (now Florida), and failed. He then signed a paper to Messrs. Lecube and Castro engaging to make good to them, "whenever his affairs mended," whatever deficit might result after the distribution of his assets up to the sum of 14,785$ m|c. In July 1872 Dr. Aguirre sued Delcampo for 11,083$, balance due to Lecube and Castro, but Delcampo pleaded, 1st that over 20 years had elapsed, 2nd that his affairs had not yet sufficiently mended. The Sectional Judge, Dr. Ugarriza, in Feb. 1873, decided in favor of the defendant. The plaintiff Lecube appealed, and in April the Supreme Court confirmed the sentence of Judge Ugarriza on the two grounds urged by Delcampo, since the debt had been suffered to lie 20 years, and the phrase "when Delcampo's affairs mended" was so vague as to nullify proceedings.

Cerruti versus Italian Insurance Co. The plaintiff lost his vessel on the coast of San Isidro, and demanded 4,000$fts. amount of insurance, which the Company refused to pay, proposing to leave the amount to arbitration, as in the Company's statutes. Cerruti applied to the Sectional Judge, but he held that as it was a Mutual Insurance Co. all shareholders were held by the statutes and the Court could not interfere, further than to summon both parties to name their arbitrators. Cerruti appealed to the Supreme Court, which confirmed Judge Zavaleta's sentence, ordering Cerruti to pay costs.

DEDICATION OF THE NEW AMERICAN M.E. CHURCH.

It was our privilege to be present on Sunday at the dedicatory services of the new American M.E. church in Calle Corrientes.

The edifice, as is well known to all who have inspected it, is a model of elegance and good taste, providing as it does an ornament for the city. It is capable of accommodating 400 people, and on the occasion in question all the seats were occupied with attentive listeners, there being present, besides the large American congregation, many visitors from the English and Scotch churches.

The superintendent of the mission in S. America, the Rev. H. G. Jackson, M.A., had made arrangements for the coming of the Rev. Messrs. Thomson and Wood to assist at the ceremony of dedication, but, owing to the quarantine and other insurmountable difficulties, these gentlemen were unable to be present. Consequently the reverend superintendent had to perform the whole service by himself, which, however, was no loss to the congregation, who, whatever their feelings of disappointment may have been, were amply repaid by one of those discourses which only Mr. Jackson can deliver.

The services commenced by the singing of that beautiful anthem, "Thine, oh Lord, is the greatness," in which all the singers, fair and otherwise, were deserving of "praises more than we can give;" after which the pastor engaged in extemporaneous prayer, which was followed by the reading of the two Scripture lessons appointed in the ritual for this class of service.

Then was sung one of the dedicatory hymns from the Methodist Hymn-book, after which we were regaled with a sermon by the Rev. Mr. Jackson such as it is not often our good fortune to hear. The text was taken from the Epistle of St. Paul to the Ephesians, v. 3.: "I speak concerning Christ and the Church." The reverend gentleman's remarks were confined chiefly to the latter part of this verse, in which he treated of the advantages received in this world through the instrumentality of the Christian Church, using the words in their broadest and most universal sense; and of the obligations which, because of these benefits received, the world lay under towards the Church. It was a beautiful discourse, breathing as it did a true Christian spirit, and reminding us forcibly of that mysterious union that undoubtedly exists between the Church militant on earth and the Church triumphant in Heaven, a union which can only be accounted for by the possession of such a head as the Church has—Jesus Christ, the Lord of Glory, who yet condescends to meet "two of the three" of His humble earthly followers who gather in His name. We could not help thinking also of the comparatively many who were alive and well among us when the foundation-stone of the church was laid, and who are now happy dwellers in one of the Father's many mansions.

After the sermon was sung another of those soul-elevating religious anthems, "I will lift up mine eyes," in which Mr. R. F. Nicholson, the able director of the choir, particularly distinguished himself by his good execution of a most difficult bass solo.

After this the collection was taken, the offertory amounting to the handsome sum of $5025 m|c.

Then the stewards and trustees of the Church approached the altar, and the usual dedicatory prayers and responses were read, which were followed by the singing of another anthem, "Deus Misereatur," in which all the singers again made themselves worthy of our sincerest gratitude and appreciacion.

After this the Rev. Mr. Jackson announced that there would be service held in the church every Sunday at 11 p.m. and at 7 p.m., and prayer meeting in the lecture room every Wednesday at 8 p.m. to all of which services a general invitation was extended. After which the Apostolic benediction was pronounced and the congregation dismissed. We noticed that the singers had obtained valuable aid from the choirs of the English and Scotch churches, which greatly added to the goodness of their own very excellent performances. The organ was, as usual under the able superintendence of Mr. J. R. Naghten, who nobly sustained his well earned reputation as a first class player.

We gladly avail ourselves of this opportunity of tendering our sincere congratulations to the gentlemen of the building committee, on the occasion of the happy termination of their arduous labors, and also to all who were in any way concerned in the building of this very beautiful Church, and we hope and trust that its influence for good may long be felt among the people of Buenos Ayres.

EDITOR'S TABLE.

The fine steamer Galileo, of the Lamport and Holt line, entered Montevideo yesterday morning. She brings dates from London to the 12th ult. The Bank of England rate of discount remained at 3½. The wretched Ashantee war is over. The British troops had reached Coomassie, the capital of Ashantee, and King Coffee, in tearful funk, offered to treat for peace and pay a war indemnity of £200,000. General Wolsely would accept nothing but unconditional surrender, which will, no doubt, be made, and the whole miserable comedy wound up. The farce afterwards may probably include a peerage to General Wolsely, such as Napier got for a similar march up the hill and down again in Abyssinia. The ghosts of Gough and Clyde, who won their coronets by saving our great Indian Empire, ought to rise from their graves and protest against the degeneracy that now confers the same brilliant reward for frightening a miserable nigger into submission to the British Lion. The Galileo brings an important bit of news from Brazil. The Bishop of Pernambuco, who is at loggerheads with the Government in a somewhat similar way to his episcopal brothers in Germany, has been condemned to four years imprisonment with hard labour. The Pacific steamer John Elder arrived at Pernambuco on the 24th ult, and the R. M. S. Neva on the 25th.

The Royal Mail Company's Steamer Liffey sails to-day for Southampton. Letters can be posted at the Capitania up to 1¼ p.m. Our Packet Edition is on sale at all the English libraries.

The Liffey's passengers landed yesterday, and there was demi-semi levee on the Mole, to bid the wanderers welcome home. The Welsh Consul was 'enveloped in friends' as he made his way to Calle Florida. "Oh Willy we have missed you!"

A journal of Bogota, New Granada, the *America*, announces a discovery so strange that confirmation is required before giving credence to it. Don Joaquim de Costa is reported to have found, on one of his estates, a monumental stone, erected by a small colony of Phœnicians from Sidonia, in the year IX. or X. of the reign of Hiram, contemporary of Solomon, about ten centuries before the Christian era. The block has an inscription of eight lines, written in fine characters, but without separation of words or punctuation. The translation is said to be that those men of the land of Canaan embarked from the port of Aziongaber (Boy-Akubal), carried away by currents, had landed at Guayaquil, in Peru. The stone is said to bear the name of the voyagers.

Not a syllable yet as to the port of Montevideo being opened, and the impression is now very general that the unfortunate place is shut up for good. Perhaps it is the best thing that could have happened to it. With its terrible Budget deficit, the want of any circulating medium, the fall in produce, enormous losses of sheep, and the failure of the Jones Loan, the only thing left to it was to 'shut up'.

We have to thank a kind subscriber for the account in another column of the Dedication of the new American Church on Sunday last. We hear that the ceremony was of the most imposing kind; and all are unanimous in praising the way in which it was conducted by the Pastor, the Rev. Mr. Jackson.

Yesterday was the most delightful day we have had for six months past. There was a touch of autumn, nay winter, about it, and the atmosphere was as elastic as an India-rubber garter, or most people's consciences. A fresh Pampero blew all day and gave new life to everybody, except the holders of Paraguayan Bonds and protested bills. The rain reappeared about 4 p.m.

The French ss. Erymanthe sailed yesterday. She took a heavy mail and the STANDARD Packet Edition for the Continent of Europe. Being a very fast steamer everyone wrote and sent papers by her.

The *Tribuna* started under its new Director, Mr. Dimet, yesterday. It now displays an on 'Change and Editor's Table, and is a decided improvement on its former style, though much room is left for the further ameliorations that may be expected from a commercial organ.

A funny Lottery lately took place in a small town called Hollandstown, in the Northern States of the Union. It seems that there were residing in the town 11 widows and 12 widowers. We presume it was a member of the Benevolent Society who first proposed that the 11 widows should become helpmeets of 11 of the widowers. At least the report says that thinking it economy to have them married, and not knowing how to pair them, a committee was selected to hold counsel as to the best mode of coupling. It took this committee the space of one hour to decide as to the method, pending which decision we may believe there was a fluttering among the hearts of the widows. It was decided to dispose of them by lot, and 'consequently,' says the report, the names of all the widows were placed in a box, and likewise the names of the widowers. The drawing took place at five p m Monday the 8th, at which time it was decided that Mr. R Menten shall marry Mrs De Brain, Mr M Menten Mrs Vink, Mr Bode Mrs Vandenberg, Mr Furstenberg Mrs Kersten, Mr Wassenberg Mrs Wilde, Mr M Verkuilen Mrs Perenboom, Mr Weyenberg Mrs Heesaker, Mr J Kobussen Mrs Tillman, Mr L Tenrusen Mrs van Doren, Mr R Herremans Mrs Rolf and Mr Soere Mrs van Bloemer. The twelfth man is Mr D H Penterman, and although he is doubtless the happiest man in seven counties over the narrow escape which he had, yet the committee are casting about for some means to supply him with a partner.

The confabulations between the Governor and the Gas Company on Saturday and Monday respecting the debt due by the Municipality to the latter led to no good result. There is to be another conference on Friday next, and if some acceptable terms are not then offered to the Company they will shut off the gas. Quite right. The Municipality deserves little consideration. It has punctually collected the 'Alumbrado Publico' tax from the citizens for years, yet not one penny has the Gas Company received. When private individuals do this sort of thing we all know what an ugly name is given to it.

Our old and esteemed friend, subscriber and quondam colleague, Mr. Nicholas Lowe, has abandoned the proprietorship of the *Daily News*, and retired from editorial life. The name of the party who replaces him is not given by our colleague.

There seems to be incessant movement in the editorial world just now, and half the papers in town are changing their owners, their offices and what not. Our Teutonic colleague is amongst the number. The *Deutsche Zeitung* is now published at that popular Arcade, Rom Court; it sports new type and looks much brisker than in its old dress.

The extension of the Belgrano Tramway to the lake at the new town of Saavedra will begin on Friday next, and be finished in 15 days, the contractors having undertaken to complete 5 squares per diem. It is also in contemplation to run a tram line from Saavedra to the hamlet of San Martin. By such a line a run from town to San Martin and back could be made in half an hour's less time than by driving from the Ramos Mejia station on the Western Railway, between which place and San Martin several omnibuses now run daily, carrying over 100 passengers.

We are extremely happy to learn that Mr. Bousfield, who was knocked down, run over and bruised by a Carnival tidal wave of humanity at Belgrano, is now completely recovered from the effects of the ugly accident.

It is really too bad. The Municipality is not content, it seems, with 'sticking' the Gas Company for their 'little bill' of eight millions currency, but is wasting the precious light in the most reckless manner. Yesterday at 2 o'clock p.m. a gas lamp near General San Martin's statue in Plaza Retiro was in full blaze, and 'quien sabe' how many more lamps in the city showed similar shameful neglect. It is to be supposed the 'pampero' had blown out all the other lamps in the Plaza, which were, no doubt, also 'turned on.' The Gas Company sent in a smart bill for light yesterday to the Provincial Government House, just to see if there is any money in that sleepy establishment.

They have got a post office at the Alexandra Colony, and Mr. Balfour is the postmaster.

Another balloon ascent took place at Rosario on Sunday. The æronaut went up three thousand feet and descended again. A very little ballooning goes a far way with the good people up the river. Not a word is said about the execution of the Southam murderers, and there are too good grounds for fearing that the miscreants will never meet the doom they are nominally condemned to.

An earthquake shock was felt in Mendoza lately. It was about "media noche" when the jolt occurred. Paterfamilias, mater and branches jumped out of bed roaring, screaming and squealing in mortal fright. Then the pigs, dogs, cows, cats and horses began an infernal chorus of fear that might rouse the dead, and all thought the "Juicio Final" had come. The end of it all was—nobody hurt!

The mail brings news of the death of Professor Anderson, the famous Wizard of the North, who contributed so much to the delight of most of us in our childish days. In his hey-day no man could compete with the Wizard in sleight of hand on either side of the Atlantic, or anywhere else; but several French and other rivals ran him from the field of late years.

The *Eco de Azul* says that cholera, or something very like it, has broken out amongst Catriel's tribe of Indians near that place. Fifteen 'braves' have already gone to the Happy Hunting Grounds, and five per diem continue to start on the same journey.

The plant auction in our front patio yesterday passed off splendidly. Some plants fetched high prices and others went for a mere song. The attendance was enormous and threatened to pulverise every shrub in the place. Eucalyptus plants were in great demand. There is no place in town where an auctioneer can gather as large an audience as at Standard Court. No matter whether the wares to be sold are plants or pottery; hogsheads of wine, or hams of wood; books, Burgundy or Abyssinian jewellery, provided they are well advertized beforehand an enormous attendance is certain. Bullrich made a great mistake in leaving us, which he has repented ever since.

Failures are now the most fashionable subjects of conversation. A lot of seedy Paul Prys are going about whispering away the credit of even the best houses. One of them has been caught already, and it is proposed to give the next a ducking or a ride on a rail, North American fashion.

The 1st and 8th Regiments of the Line have been sent up to Paraguay, the first to be stationed at Asuncion, the second at Villa Occidental.

The Inspector General of Telegraphs has given notice that from the 1st instant the offices of the "Telegrafo Nacional" will remain open every day till half-past four o'clock p.m. for the transmission of private messages, and up to seven o'clock p.m. for Press messages.

During the storm on Sunday night the lightning struck the swell hat and walking stick shop at the nor-west corner of Calles Florida and Victoria. The flash set fire to the 'tolda,' but the rain put the blaze out. There was not a soul in the house at the time.

"Heine said of the elder Dumas:—'His head is an inn where good ideas often enter, but where they never remain over night. Very often it is quite empty.'"

"In the town of Alfred, Maine, an old lady has been discovered whose singular good fortune it was to be born on the 4th of July, 1776. She is a Shaker, and her name is Lucy Langdon Nowell. It is another of her virtues, that she has never been in a railroad-car, and it is proposed, if she holds out so long, to send her in a Pullman palace-car to adorn the opening of the Centennial Exhibition in 1876."

THE LANUS RACES.

Partido of Ranchos, Feb. 25th.

To the Editors of the STANDARD.

Gentlemen,

In your impression of 22nd inst. the following observation appears in the Editor's Table:

"'On dit' that it is unlikely that Nil Desperandum will run at the approaching Lanus meeting, as owners of horses are afraid to enter them against him."

Permit me to occupy a portion of your space in giving a few reasons why owners of half-bred horses do not come forward with their animals in order to have a trial of speed with the tried and hitherto victorious Nil Desperandum.

However swift and well-bred a horse may be, it is very seldom indeed that we find he has not gone through severe work at home; if, as generally is the case, he be brought here for breeding purposes, he is not fit to compete successfully at race meetings, however well he may turn out at a public show or in the stud. To recover from the effects of the voyage, to become perfectly acclimatised, to get into proper form for racing, may be the work of years, as is proved by the distress a horse suffers from when crossing the Channel from England to France, a few hours' trip, it is true, but still sufficient to cause our best horses in England to forfeit their honors on French soil; and this may also be said of French winners on their arrival in England. Therefore the deterioration and drawbacks incurred on the long voyage from England or France to the River Plate must be considerable. Also, while an importer prides himself a great deal on his thoroughbred, and would perhaps rejoice to see him repeating the feats here on the turf which gave him first a name in England, yet the main object—indeed, the wish of his heart—is to turn out the stock of the sire in as fine condition as possible.

Besides, how can owners of half-breds be expected to compete against really meritorious thoroughbreds on equal terms? Let the thoroughbred be handicapped, and then half-breds would have some chance. If we had an event for half-breds, to carry weight for age, or for three-year-olds, or both, with a cup or added money as a prize, I think we should enjoy a large field—a pleasure rarely seen in this part of the world.

Horse-breeding is certainly worth the Government patronage, and it may be expedient for his Excellency the President to offer premiums for the best animals of certain classes and ages.

By giving us the support, countenance and personal notice of intelligent and progressive Argentines at the helm of affairs in our efforts to improve the horses of the country, an impetus would be given which could not fail to be lasting and beneficial.

These can scarcely be said to be my own particular opinions on the above subject, as, having talked the matter over with several amateurs, I find that theirs are the same.

Hoping that you will excuse my taking up so much of your valuable space, and trusting that your powerful influence may be the means of fostering our sports and bringing all men to act in concert in keeping up this fine institution of the old country, in time Buenos Ayres may be proud of its "Derby," if we despise not the day of small beginnings.

I remain, gentlemen,
Yours truly,
TESTIGO.

THE CORDOBA OBSERVATORY.

Cordoba, Feb. 24, 1874.

To the Editors of the STANDARD,
Gentlemen,

The report of the Director of the National Observatory published in your issue of Feb. 20th contains misstatements about my person and defaming attacks upon my honor; so I hope that you will not decline to publish in your widely circulated paper, whose motto is Truth, such notification as will rehabilitate my honest name, which for the first time public slander tries to contaminate.

1. I was never engaged by Mr. Gould nor paid by him directly. Mr. Ruthenford of New York contracted with me in the name of Mr. Quincy, to make in the Southern hemisphere similar photographic work as Mr. Ruthenford had done in the Northern; these photographs were to be made for Mr. Gould. Mr. Quincy, father-in-law of Mr. Gould, *had at hand* for this purpose $3000, collected among friends, as Mr. Ruthenford stated to me. On this fundament I made a contract for one year and a half. However, my salary which was stipulated to be paid quarterly, was not paid here regularly, and when I urged the payment at the end of the year, Mr. Gould asked me still to wait some time, as he was expecting money to be sent from the United States! So I have no reason to think that he finally paid the money from his own pocket; if he did, it is a perfectly private affair between him and Mr. Quincy.

2. Concerning publications issued by me, I wish to make the following statement. On my arrival in Cordoba I found the photographic lens broken; by assiduous work and following my own ideas, I put the broken lens in working order and succeeded to get some satisfactory results. I published a report of these my photographic experiments, all made without any assistance or suggestion of Mr. Gould, in German and North American journals, and sent specimens of pictures, transferred on paper, of my own property, to my scientific friends, to show them what results I had realized with a broken lens. I expressly stated in my publication that the *astronomical* results to be derived from my work, were reserved to Mr. Gould. That is what Mr. Gould dares to call fraud.

3. What Mr. Gould says about his efforts to get a professorship for me, will be corrected by the following declaration of my former colleagues. What Mr. G. says about the breach of my compromise with the Government, I will not discuss here, neither his efforts by which he prevailed at last on the Government to remove me from the position of professor. I do not care that Mr. G. calls me all the time the photographer, while my official position was that of professor in the Academy. I understand photography, but the scientific world knows from my former publications, that I am competent in physics.

Declaration.

We, the undersigned professors of the Academy of sciences, on demand of Dr. Sellack, declare:

1. Having been commissioned two years ago by H. E. the Minister of Public Instruction to propose a professor of physics of the Academy; we adressed to different German Universities, and in consequence Dr. Sellack was recommended to us as a competent person by a letter from Leipzig in July 1872, with the notice that Dr. Sellack then was in the U States.

2. We presented Dr. Sellack to the Minister as candidate, particularly as this gentleman had come in the meantime and accidentally to Cordoba, engaged by a North American association for photographical astronomical researches.

3. Dr. Gould did not support our proposal, though we had asked him to do so.

4. H. E. the Minister promised us the nomination of Dr. Sellack without any reserve for the 1st of January 1874, but it was not effected before March 1874, after transactions with Dr. Sellack.

Cordoba, 24th Feb. 1874.

Dr. Alfred Stelzner,
Professor of Mineralogy.
Dr. P G Lorentz,
Professor of Botany.

I am, dear Sirs,
Yours truly
Dr. C. S. Sellack.

ON 'CHANGE.

March 3rd, 1874.

Ounces	400

Pats	25
Nat. Bonds	80
Cedulas	84½

There was a general let down in the market to-day. One or two well known English brokers sold out; this shook the market, the more particularly as it was freely said one of these brokers was selling for a well known Bolsa speculator who is a very large holder. The market closed this evening all bears, and to still further influence the market the question as to the Provincial Bank having the right to enter before even the Mortgage Bank, was much discussed. The question is one of very high importance to the stock and to the market, and the only way to avoid the difficulty is for the Mortgage Bank henceforward to demand a certificate from the Prov. Bank to the effect that the Mortgagor owes nothing to the bank, this however will much check the business of the Mortgage Bank. Yet there seems no other way to arrange a question in which some of the first lawyers of B Ayres consider the Provincial Bank has the right; coming at a moment like the present this question serves the purposes of the bears, although so far there is no heavy bear speculation noticed.

Exchange ruled flat to-day and the brokers report no bills at 49. Something was done at 48¾, but exporters have little to draw against and takers have very little money to pay for exchange. The transactions to-day were bills to-morrow and cash on Saturday. Bills on Antwerp 5.20 and on Paris 5.19, altogether a small business done for Erymanthe and Liffey. It was said to-day that bills have come back in the Niger to the amount of about 15 to £20,000 stg.; the house in question is a Peruvian one with a head house in Paris, and a branch house here.

The sales to day were—

The sales to-day sum up as follows—
Cash sales 53,000.
End month 515,000.
Various 175,000.
In the liquidation—
Prices ruled dull.
For end month 10,000 85¼

The sum of 50,000 pats was taken up on Cedulas at 10½ per cent per annum.

It was announced on 'Change that there will be a special triple alliance commission held at Rio to settle all questions about Paraguay; Dr. Tejedor goes to Rio.

Letters per Niger state that the Oriental loan is still in the hands of Barings, that the price asked is too high 85, but that what checks the business in it do are the rumours in London of difficulties between Brazil and the Argentine Republic Per Erymanthe to-day however, letters go forward to London contradicting in toto all these rumours, it is to be hoped these letters will do some good.

Captain Gillies of the Liffey, and Mr Gillman purser were welcomed on 'Change to-day; the passengers came ashore to-day, and the Liffey sails to-morrow; we heard on 'Change that she will take about £70,000 sterling, also 85 cases of Forbes preserved beef, no other cargo and a few passengers.

The land sold at Moron at auction on Sunday realized about 100 m|c per vara cuadrada on say 3000 m|c per vara front.

Mr. G P Craufurd is expected down to-morrow from the mines.

Mr. Turner, the representative of Messrs. Clark, Punchard & Co., is expected out in the Neva to begin the Campana railway works. Mr. Neville Mortimer, who successfully launched this concern in London, was warmly welcomed by his friends to-day.

Mr. Tuson's port scheme for Montevideo, we heard to-day, will be passed by the Chambers in Montevideo.

All the bonus shares of the Platino-Brazileira Telegraph Co., £115,000 sterling, are now deposited at Glyn Mills bank in the joint names of Messrs. Heagh and Grant, for distribution on the laying of the cable, 1 share of £20 for every 4 Platino shares.

Letters from London state that the lowest figure for the concession of the Rosario Railway is £300,000, of which 200,000 cash and £100,000 in shares. The business has not yet been done as the London people consider it dear.

Messrs. Siemens Bros., London, under date of 27th January, announce to a subscriber that the Ambassador, carrying the first section of the Platino-Brazileiro Company's cable, was to have left London in the beginning of February; and the Gonu about the middle of same month. Allowing the Ambassador the entire month of February to reach Rio Janeiro, it may be assumed that at this moment the section from Rio to Santos and Santa Catharina is being laid, and by the time this will have been completed the remaining section to Rio Grande and Frontier will have arrived and be laid at once. We perceive by the London papers that Mr. Albert Grant, of the firm of Grant Bros. and Co., of Lombard-street, to whom we are principally indebted for the realisation of the Platino-Brazileiro Company' cable to Brazil, has just presented to the citizens of London that historical spot of dilapidated monumental memory, Leicester Square, converting it into a beautiful garden and affording an agreeable "paseo," which he offers gratis to the neighborhood. Mr. Grant is a candidate for Parliamentary honors in the Conservative interest, for the borough of Kidderminster.

The French mail steamer Erymanthe cleared to-day; she took a heavy mail, and it was said in Mercantile circles that the letters by this mail are not of a favorable character, owing to the heavy failures last week and the unsteady state of the market.

The statement in the *Tribuna* this morning that the Galileo would probably bring advices that would cause more failures here was much spoken of. We believe there is not the slightest foundation for any such report. There seems to be a general desire in certain circles to exaggerate and make things worse than they are; this is most reprehensible and calculated to do much harm. The position of the market may be somewhat difficult owing to the great development of trade without a proportionate increase of capital. Each year we find our trade increasing, whilst our capitals are the same and our circulating medium less In former years all the foreign houses were always large holders of capital; they were a species of private bank, discounting, mortgaging, investing, but all this is now changed; few houses that are not indebted to the Provincial bank; instead of lenders they are frequently heavy borrowers in the market; the whole system of business has undergone a great change, and spite of everything, we find money tight and Exchange down. The creation of the National Bank has weakened the Provincial Bank, and hardly as yet with all its discounts has it given back to the market the money sucked from it to make a start. The Mortgage Bank has flooded the market with a new security which calls money from ordinary channels to give to land owners and people that never signed a trade pagaré in their lives; again if to these circumstances we add last year's land fever, this year's quarantine, port closing and cholera alarm, we find many of the difficulties that surround the market explained. The saladero faena it now seems will fall far short of expectations; the wool season is all but over, the more experienced think that we have not more than 800,000 arrobes left. The maize business notwithstanding all the fuss made about it is but a mere bagatelle. Perhaps the best news for the market is the great falling off in the shipment of fine goods from Europe to the Plate; we note it in the steamer's manifests, and we hear of it by letter from Liverpool and other ports. Meanwhile money seems again to be tightening in England; the money article of the *Times* 4th Feb. marks the change, and attributes it to the heavy withdrawals of gold for France; stocks are flat, discount rate the same, but money in more active demand.

The Mortgage Bank statement for the month of February, which will be found at foot of this column, is most important. The increased circulation or emission amount to 217,000 pats. which after all seems trifling; still, it is always something, and shows the steady growth of the Cedulas. We have now 12,120,000 pats. in Cedulas; it is the highest figure as yet. The following table will show the working of the Bank since last December—

Serie A		
Dec.	1873	10,891,700
Jan.	1874	10,843,900
Feb.	1874	11.120,300

The other series show scarcely any alteration, and amount to, altogether, $f. 1,328,900. Investors can now see the exact amount of Cedulas in the market.

The Galileo's telegram came up early, and the news of the wind up of the Ashantee war was welcome news for British residents in the Plate. The cable between Para and Rio works splendidly, and in Rio they have news now daily from all the Northern ports. The Douro entered late on 20th; her mails were delivered on 21st.

The Itagapuru left this evening for Montevideo to wait on the John Elder passengers. She took down a heavy specie remittance.

The French mail steamer, Niger, entered port to-day with 260 passengers free of quarantine.

Merchants and shippers will be glad to hear that there has been a modification of the quarantine rules on vessels from Brazil; quarantine now is 15 days from the date of leaving a Brazilian port; this is still severe enough. At Montevideo, government has ordered 9 days' quarantine on all vessels from Rio.

During the absence in Europe of Mr. Good, manager of the Maua Bank, Paysandu, Mr. J Kemsley will act as manager pro tem. Mr Kemsley many years ago was editor of the *Commercial Times*, and subsequently sub-editor of the STANDARD.

Mr. Nicholas Lowe has retired from the proprietorship of the *Daily News*, published in this city. Mr. William Gath, we hear, succeeds him.

The returns of the Montevidean Custom-house for last month show a slight falling off, still the figures show a very splendid revenue—428,043 pats.; but it is all swallowed up by payments of coupons, &c.

Messrs. Woodgate Bros., in their excellent shipping circular for the mail, give the following as the total exports for month ending 28th Feb., 1874—

Salted cowhides, 19,768
Do horse, 5599
Dry cowhides, 57,027
Do horse, 2622
Tallow, pipes, 2189
Do, boxes, 3138

Freights We have again had a very dull month, with very little doing either in wool or saladero produce. We close the month with 39 vessels or 16,417 Reg. tons disengaged. The cholera has now disappeared, but the ports of the Banda Oriental continue closed against us.

Messrs. Schaffenorth and Sattler, in their circular for the mail, give the following interesting table of wool exports:—

The 10th and last call upon the Mutual Gas Co.'s shares will be made on the 5th March. The main layers will again be hard at work within a few days, the Municipality having given orders for the Company to continue, as the cholera is now a thing of the past. The first 2,000 lamps will be taken over on 1st June next.

DYSENTERY, CHOLERA, FEVER AND COUGHS, COLDS, &c.

DR. J. COLLIS BROWNE'S
(Ex Army Med. Staff)
CHLORODYNE
IS THE ORIGINAL AND ONLY GENUINE.

CAUTION.—Vice-Chancellor Sir W. P. Wood stated that Dr. COLLIS BROWNE was undoubtedly the Inventor of CHLORODYNE that the story of the Defendant, Freeman, being the inventor was deliberately untrue, which he regretted had been sworn to. Eminent Hospital Physicians of London stated that Dr. J. Collis Browne was the discoverer of Chlorodyne, that they prescribe it largely, and mean no other than Dr. Browne's.—*The Times*, July 12, 1864.

The Public, therefore, are cautioned against using any other than

DR. J. COLLIS BROWNE'S CHLORODYNE
REMEDIAL USES AND ACTION.

This INVALUABLE REMEDY produces quiet, refreshing sleep, relieves pain, calms the system, restores the deranged functions, and stimulates healthy action of the secretions of the body, without creating any of those unpleasant results attending the use of opium. Old and young may take it at all hours and times when requisite. Thousands of persons testify to its marvellous good effects and wonderful cures, while Medical men extol its virtues most extensively using it in great quantities in the following diseases:—

Diseases in which it is found eminently useful—Cholera, Dysentery, Diarrhœa, Colics, Coughs, Asthma, Rheumatism, Neuralgia, Cough, Cramp, Hysteria, &c.

EXTRACTS FROM MEDICAL OPINIONS.

The Right Hon. Earl Russell communicated to the College of Physicians and J. T. Davenport that he had received information to the effect that the only remedy of any service in Cholera was Chlorodyne.—See *Lancet* Dec. 31, 1864.

From A. Montgomery, Esq., late Inspector of Hospitals, Bombay:—"Chlorodyne is a most valuable remedy in Neuralgia, Asthma and Dysentery. To it I fairly owe my restoration to health after 18 month's severe suffering, and when other remedies had failed."

Dr. Lowe, Medical Missionary in India, reports (Dec. 1865) that nearly every case of Cholera in which Dr. J. Collis Browne's Chlorodyne was administered, the patient recovered.

Extract from *Medical Times*, Jan. 12, 1866.—"Chlorodyne is prescribed by scores of orthodox medical practitioners. Of course it would not thus be singularly popular did it not 'supply a want and fill a place.'"

Extract from the General Board of Health London, as to its efficacy in Cholera.—"So strongly are we convinced of the immense value of his remedy, that we cannot too forcibly urge the necessity of adopting it in all cases."

Beware of spurious and dangerous compounds sold as CHLORODYNE, from which frequent fatal results have followed.

See leading article, *Pharmaceutical Journal* Aug. 1, 1869, which states that Dr. J. Collis Browne was the Inventor of Chlorodyne; that it is always right to use his preparation when Chlorodyne is ordered.

CAUTION.—None genuine without the words "Dr. J. Collis Browne" on the Government stamp. Overwhelming medical testimony accompanies each bottle.

INTIMATION TO THE LEGATEES, or Representatives of Legatees of the deceased ROBERT DICKSON, of Gleantowing, Lanarkshire, Scotland. In terms of an order of the Lord Ordinary officiating on the Bills in the Court of Sessions, Scotland—

NOTICE IS HEREBY GIVEN, That an Action has been raised, and is at present depending before the said Court, at the instance of Mrs. MARTHA HILL, or DICKSON, residing at Drymore. Argyleshire, relict of WILLIAM D. DICKSON, of Gleantowing; and JAS McKIE, Solicitor, Dumfries, Trustees of the said WILLIAM D. DICKSON; and others; Pursuers and Real Raisers against ELIZABETH WAUGH, or McDONALD, wife of ALLEN McDONALD, formerly residing in Dunscore, County of Dumfries, now in Montevideo; and the said Allen McDonald for his interest, and others mentioned in the summons Defenders, called for their interest in the distribution in the said action of the sum of £1633 6d 8s sterling. consigned in bank to pay the remaining shares of the legacies bequeathed by the said Robert Dickson's settlement; which sum was is dated 3d May, 1873, and was called in Court on 10th July, 1873.

Said Order is as follows—

"ACT McKIE— "3d September, 1873.

"The Lord Ordinary officiating on the Bills on the motion of the Pursuers and Real Raisers, appoints intimation of the dependence of this Process to be made, along with the Order now pronounced, in the following newspapers, viz.—The Scottish American Journal, New York; The Melbourne Argus, Australia; and The Buenos Ayres Standard, Buenos Ayres; that the parties named in the Roll No 20 of Process and all others interested may lodge their claims, if so advised, on or before the 3d day of February next, 1874.

BEST FOOD FOR INFANTS.—"H R H Prince Albert Victor thrives so well upon it that it must be very good."—T. M. Kendall, Medical Attendant to H.R.H. the Princess of Wales. "This food resembles Mother's Milk as closely as possible."—Dr. H. Barker on Right Foods for Infants." Highly nourishing and easily digested."—Dr. Hassell. It combines the most valuable "Flesh and Bone-forming Substance," and differs essentially from other farinaceous foods, which being quite unable to afford proper nourishment to a growing infant, frequently lead to a rickety and idiotic condition. Savory and Moore's preparation has also the advantage of being freed from the ground husk of the corn, which produces irritation of the bowels and intractable diarrhœa. No boiling or straining required Sold in tins by Savory and Moore, 143 New Bond-street, London. Procurable of all Chemists and Italian Warehousemen throughout the world.

SAVINGS BANK
BANK MAUA AND CO.
101--Calle Cangallo--103
BUENOS AYRES.

The immense advantages of Accounts Current are now so generally felt and appreciated in the great emporiums of the River Plate, Montevideo, and Buenos Ayres, that there are very few Merchants who fail to keep one at the Bank in which they place the most confidence.

The Bank of Maua & Co. in Montevideo has already provided for the working classes in that city a safe and profitable depository for their savings.

The sums deposited in that very important institution are daily increasing, and already reach a very large amount.

These advantages have not hitherto been enjoyed in this city by an immense number of clerks artisans, working men, and servants of all classes and conditions, who are equally interested in putting their savings out at interest, thus providing themselves with a reserve fund in case of need sickness, or old age, instead of spending them in immoral gambling, in lotteries, and other frivolities.

The Bank of Maua & Co. of this city, following the noble example of their firm in Montevideo, offer the same facilities in this city, and has opened a Savings Bank at No. 103 Calle Cangallo from Nine a.m. till Three p.m. every day, for the reception of the savings of the classes already mentioned, Sundays and holidays excepted.

The Bank will deliver to each depositors a pass book, in which will be entered the amount deposited and withdrawn.

The depositor is permitted at any time to withdraw the whole or part of the sum deposited; in the former case the interes will be calculated up to date.

The Bank of Maua & Co. is sufficiently known to the Public by the benefit derived from the course of its operations, which are regulated on the strictest and soundest principles, and always directed to promote the general welfare.

The Bank of Maua & Co. are also persuaded that this new branch of their business will render immense service to the working classes of Buenos Ayres and its neighborhood.

Buenos Ayres, 2nd January, 1867.

P. P. MAUA & Co.,

M. A. DE FREITAS AMORIM

CONDITIONS.

First—The Bank receives at interest any sum from Twenty-five Dollars currency or one Silver Dollar upwards.

Second—The interest allowed is six per cent. (6 p. %) per annum, which is liquidated every six months.

Third—The depositors can at any time retire the whole or part of the money deposited.

Fourth—Once the money deposited exceeds a thousand dollars silver, the depositor, if he wish can open an account current, according to the rules established by the Bank.

Fifth—In case the depositor loses his pass book it can be replaced by another on paying twelve dollars currency, and advertising the loss in the public newspapers.

Bristol's sarsaparilla

Is prepared in the most scientific manner, by thoroughly educated chemists and Druggists, who have had many years' experience. It is not a simple extract from one article, but is compounded of extracts from a number of Roots, Herbs Barks, and Leaves, all of which are possessed of some particular virtue or power in curing the diseases that have their source in the blood and humors; these different vegetable extracts are combined in such a way as to retain, in so full strength, the special curative virtue possessed by each. The root of the Sarsaparilla plants found in Honduras, is that which we use in this preparation; it is the kind which all medical men esteem most. About fifty per cent. of Bristol's Sarsaparilla consists of the concentrated extract, the remainder, as above stated being composed of extracts from other powerful, cleansing and healing vegetable substances. It does not contain any thing that is dangerous or injurious to health, and in this, as in nearly every other respect, is entirely different from all other preparations sold under the name of Sarsaparilla.

By having our own agents at the places where the various roots, drugs, herbs and plants, composing our medicines, are produced, we are enabled to exercise that constant care in selection which insures uniformity of excellence, and we spare no money and no effort to procure the best—and only the best—of every article entering into their composition; and it is with the most abiding confidence we say, to the sick of all nations and all countries, that, in Bristol's Sarsaparilla you have a remedy more reliable than any before offered to you, and which will not disappoint you in the cure of

Salt Rheum, Tetter, Scald Head,
Syphilis, or Venereal Disease,
Nervous and General Debility,
Old Sores, Ulcers, Tumors,
Abscesses, Boils, Eruptions
Scrofula or King's Evil,
Female Derangements,
White Swellings,
Fever and Ague,
Chills and Fever,
& Dumb Ague.

As a means of building up the constitution that has been broken down by the excessive use of Mercury, Iron, or other Minerals, our Sarsaparilla will be found most excellent, and can be administered with safety to the weakest patients. As a purifier of the blood and humors, in the Spring and early Summer, it will be found unfailing. It can be taken freely at seasons, rainy or dry. For some of the above diseases, the use of the Sarsaparilla must be continued a considerable time, especially for those that are hereditary or constitutional in their nature—such as Scrofula: but a faithful compliance with the directions will always relieve and mitigate, and in a great majority of cases will effect a complete cure. It will also be found, in all of the above diseases, that a cure will be greatly hasted by using our Bristol's Sugar-coated Pills, in moderate doses, in connection with the Sarsaparilla—they carry off large quantities of morbific or diseased matter set free in the system by the Sarsaparilla, and in this way facilitate the return to healthful functional operations. —o— 46

Carmen de Areco.

IN THIS Flourishing Camp Town, the centre of rural riches, the home of pastoral magnicence, the flower garden of bucolic prosperity, here where Health, Peace and Happiness may be said to have taken up their headquarters,

DON MANUEL HORTAL TORROBA,
so well and favorably known to the foreign residents of Mercedes and Chivilcoy, has established a

GENERAL CAMP STORE,
where sheep-shears, twine, tea, coffee, &c., are retailed at the
LOWEST PRICES.

NB.—All kinds of produce bought

All the necessaries, and most of the luxuries of life, can be had here at Buenos Ayres prices, viz., the best Congou or Orange Pekoe, Oatmeal, Coffee, Sugar, Currants, Pickles, Old Irish Whiskey, Brandy, Biscuits, Iron Ware, and an infinity of other articles too numerous to mention, but which are always in Stock.
